

Earthquake March 11, 2011

Shabbat Vayikra

My Tania *before* Shabbat celebration

Tania *after* Shabbat celebration!!!! All the time with her helmet on. I witnessed several aftershocks with her...

Abba, I bless you and thank you so much for protecting my sweet Tania. Thank you for bringing her safely down this 23rd floor of that building she was in and that she even got her bag back that she had thrown away while running down, with nothing missing of what was in it! I thank you that you were there for her, also ministering to her in her fears while we were praying and reading your word. You soothed her soul – her sorrowful and fearful face from before having to our little Shabbat celebration turned into her usual happy laughter at the end! Thank you so much, Adonai!!! Now please protect her also in her sleep, give her a relaxing and healing sleep. Please also keep protecting her family, thank you that no-one was hurt.

Abba, I also ask you to help those who became victims of this horrific earthquake and tsunami. It is so terrible to watch what happened there. Please be with the people, make them see you. Make them understand now that their many idols cannot help them, but that YOU died also for them and that they can be saved by giving their hearts and lives to you!!!! B'Shem Yeshua HaMashiach Adonainu I pray. Amen Abba!!!
